

HARMONY: European Network of Excellence for Big Data in Hematology

XI Conferencia Anual de las Plataformas Tecnológicas de Investigación Biomédica: Medicamentos Innovadores, Nanomedicina Tecnología Sanitaria y Mercados Biotecnológicos

Barcelona, 5 de marzo de 2018

HARMONY

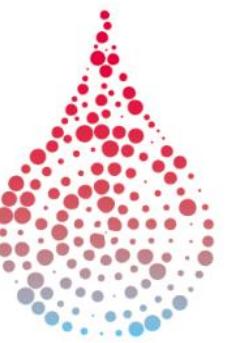

Healthcare Alliance for Resourceful Medicines
Offensive against Neoplasms in Hematology

European Network of Excellence for Big Data in Hematology,
consisting of 51 partners from 11 countries.

Jesús M. Hernández
HARMONY Coordinator
Institute of Biomedical
Research of Salamanca
(IBSAL)

HARMONY

What is HARMONY?

IMI: Innovative Medicines Initiative

Europe's largest public-private partnership in healthcare to speed up development of and patient access to new medicines

During first phase (2008-2013), IMI budget of €2 billion, half of which came from the EU's FP7, and half of which came from in kind contributions by EFPIA companies

BD4BO: Big Data for Better Outcomes

Initiative within IMI seeking to leverage big data to improve outcomes

- 1 Design sets of standard outcomes and demonstrate value
 - 2 Increase access to high quality outcomes data
 - 3 Use data to improve value of HC delivery
 - 4 Increase patient engagement through digital solutions
- 4 key enablers

Initiatives in different disease areas

IMI projects addressing BD4BO's key enablers in different therapeutic areas

HARMONY is a key initiative within IMI

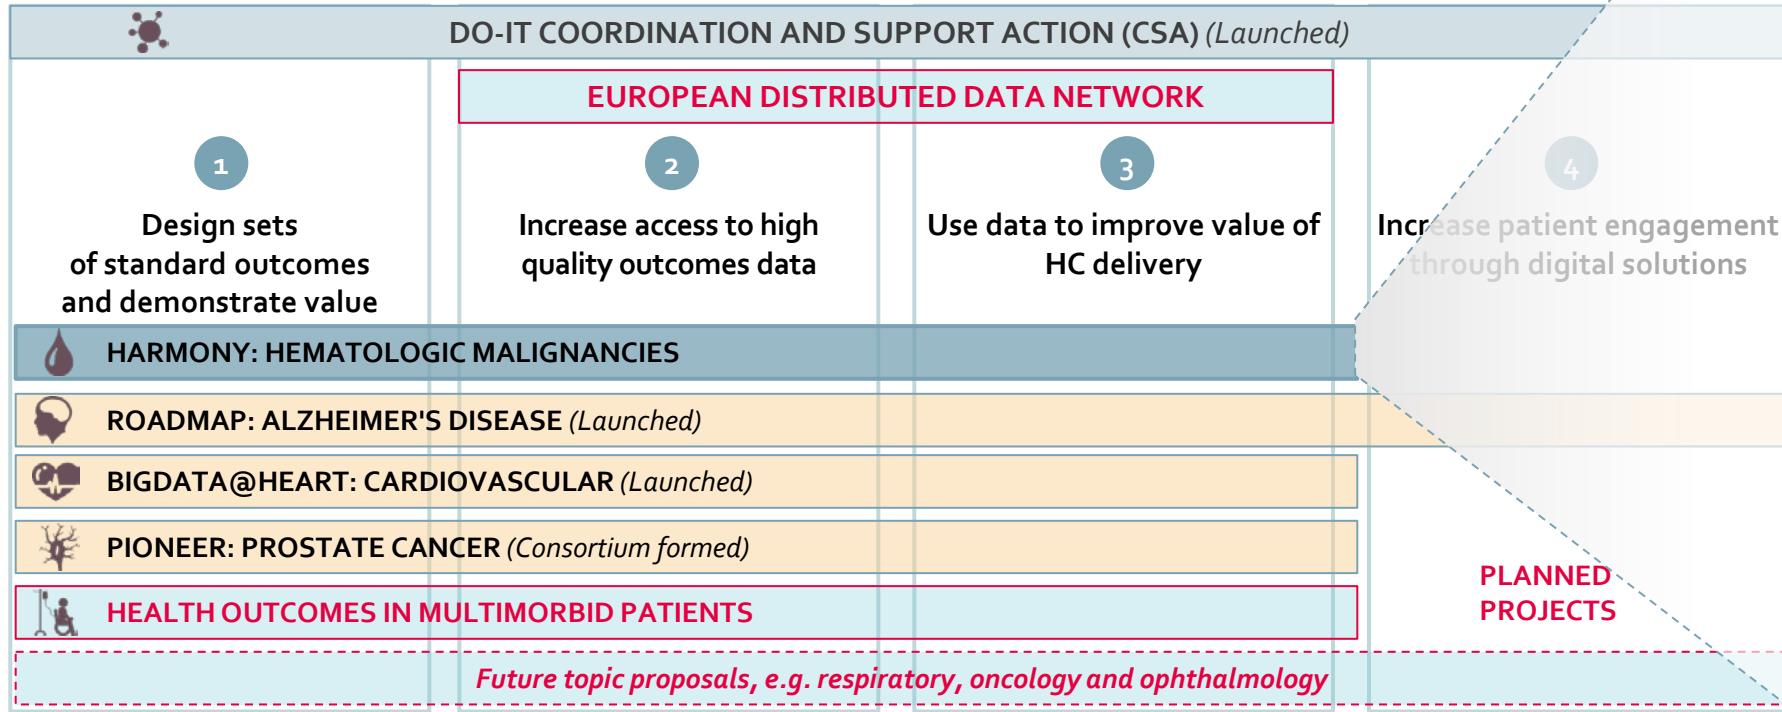

Funded by

"Big data for better outcomes"

Goal: Support the evolution towards outcomes-focused and sustainable healthcare systems, exploiting the opportunities offered by large data sets from variable sources

Under the "BD4BO" umbrella, HMs is currently the largest program

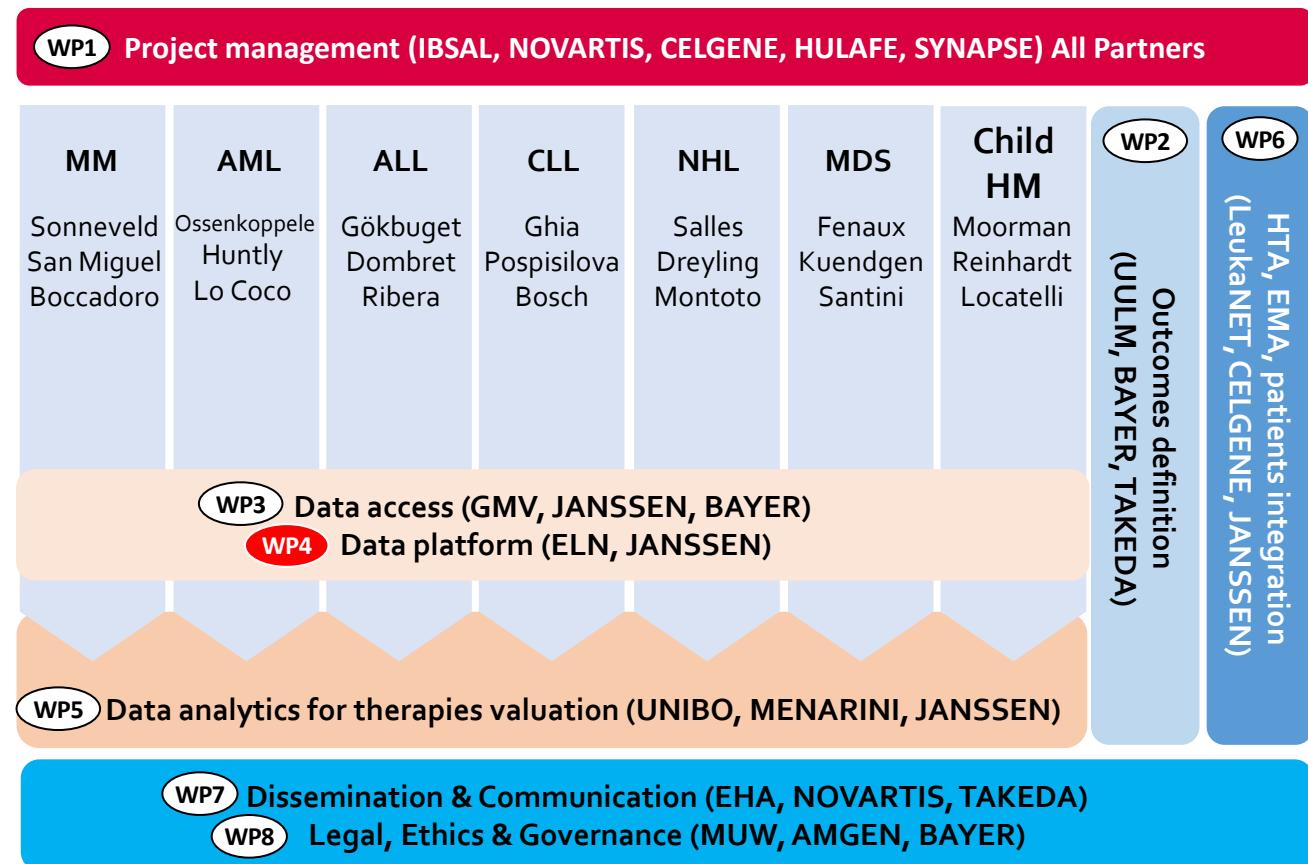

HARMONY
Innovative Analysis for Hematology
Improving patient outcomes in hematology

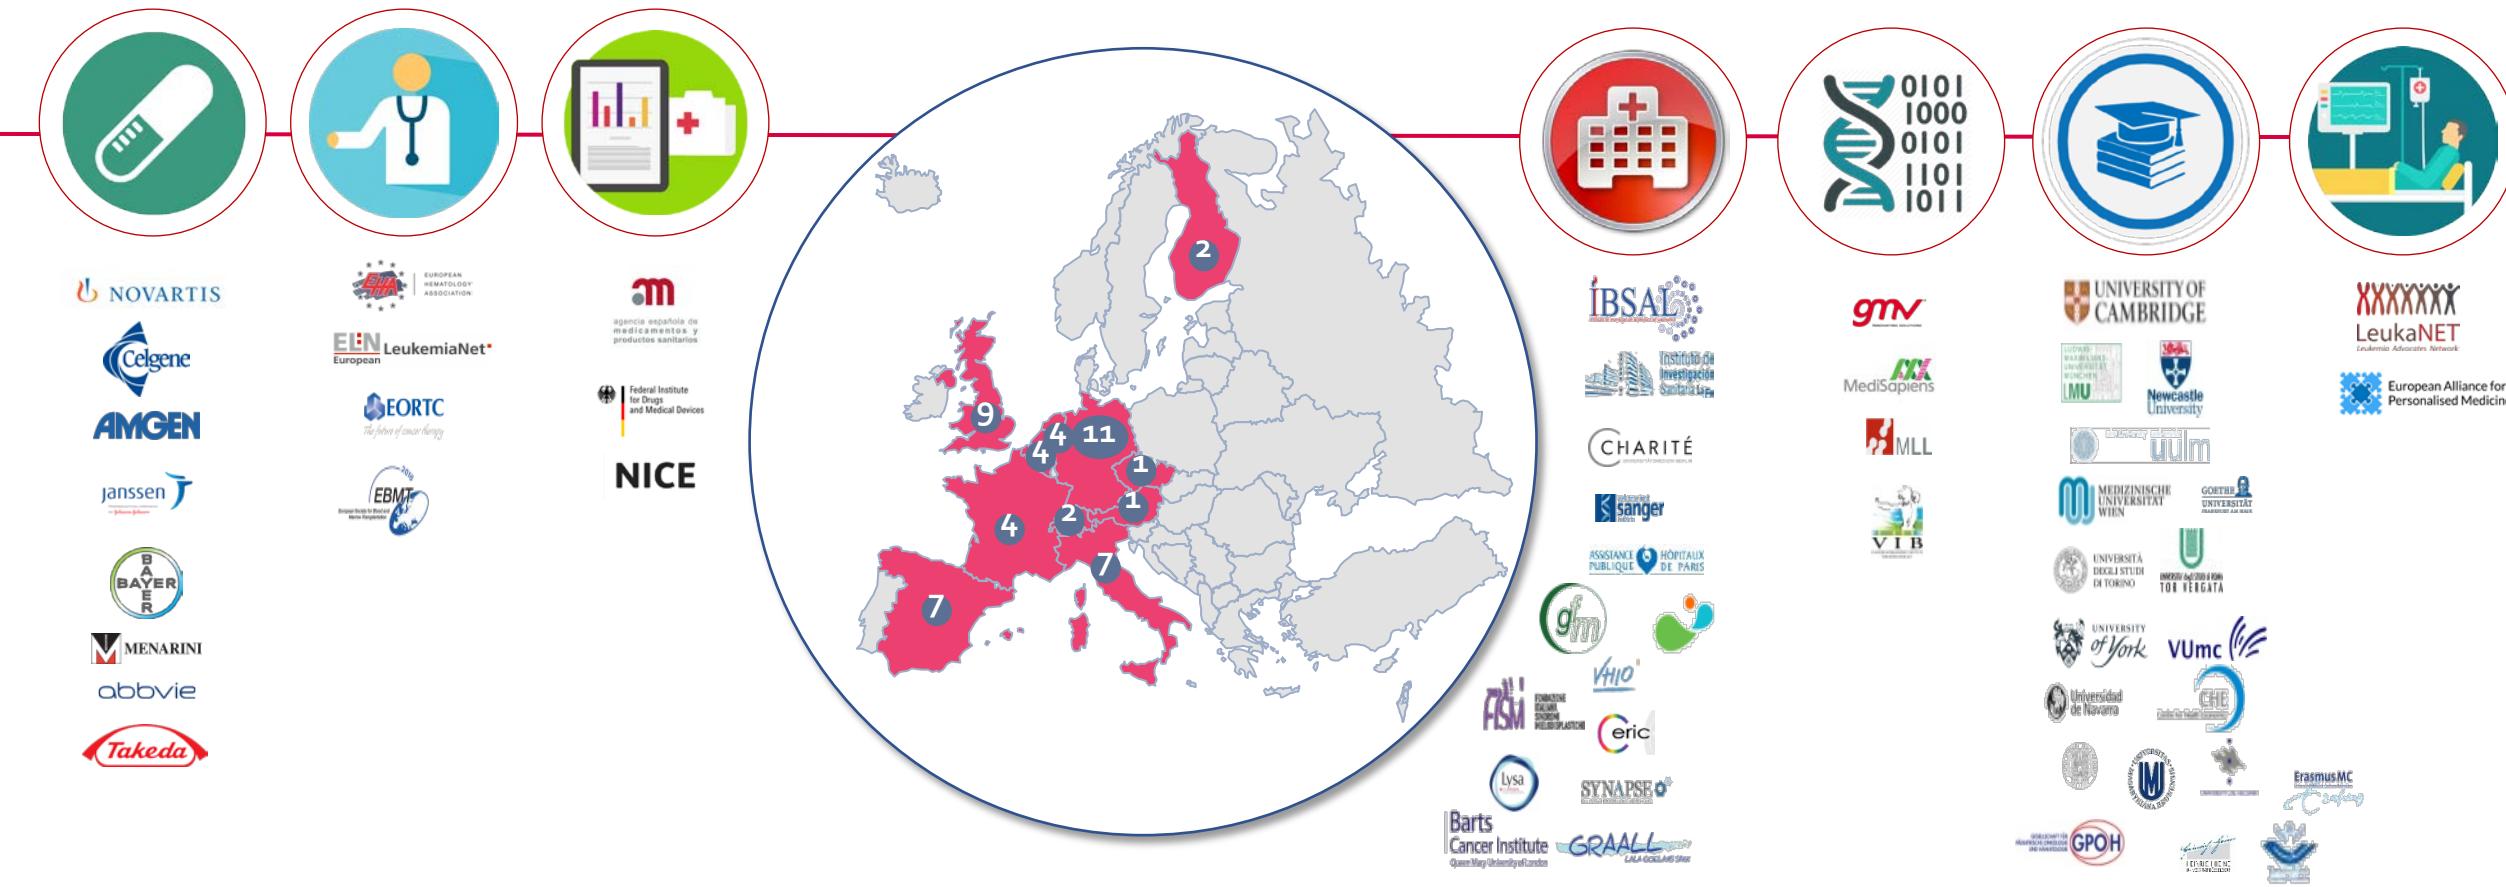

Funded by

- Specific questions by disease
- Involvement of KOLs and collaborative Working Groups
- Molecular and Clinical Data

8 Work Packages across 7 diseases

53 organisations from 11 european countries, including 8 pharmaceutical companies

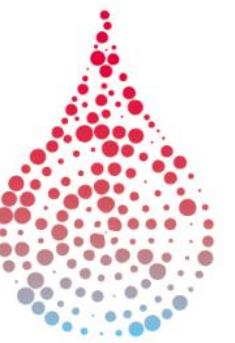

HARMONY
European Alliance for Hematology
Innovative Medicines Initiative

Funded by

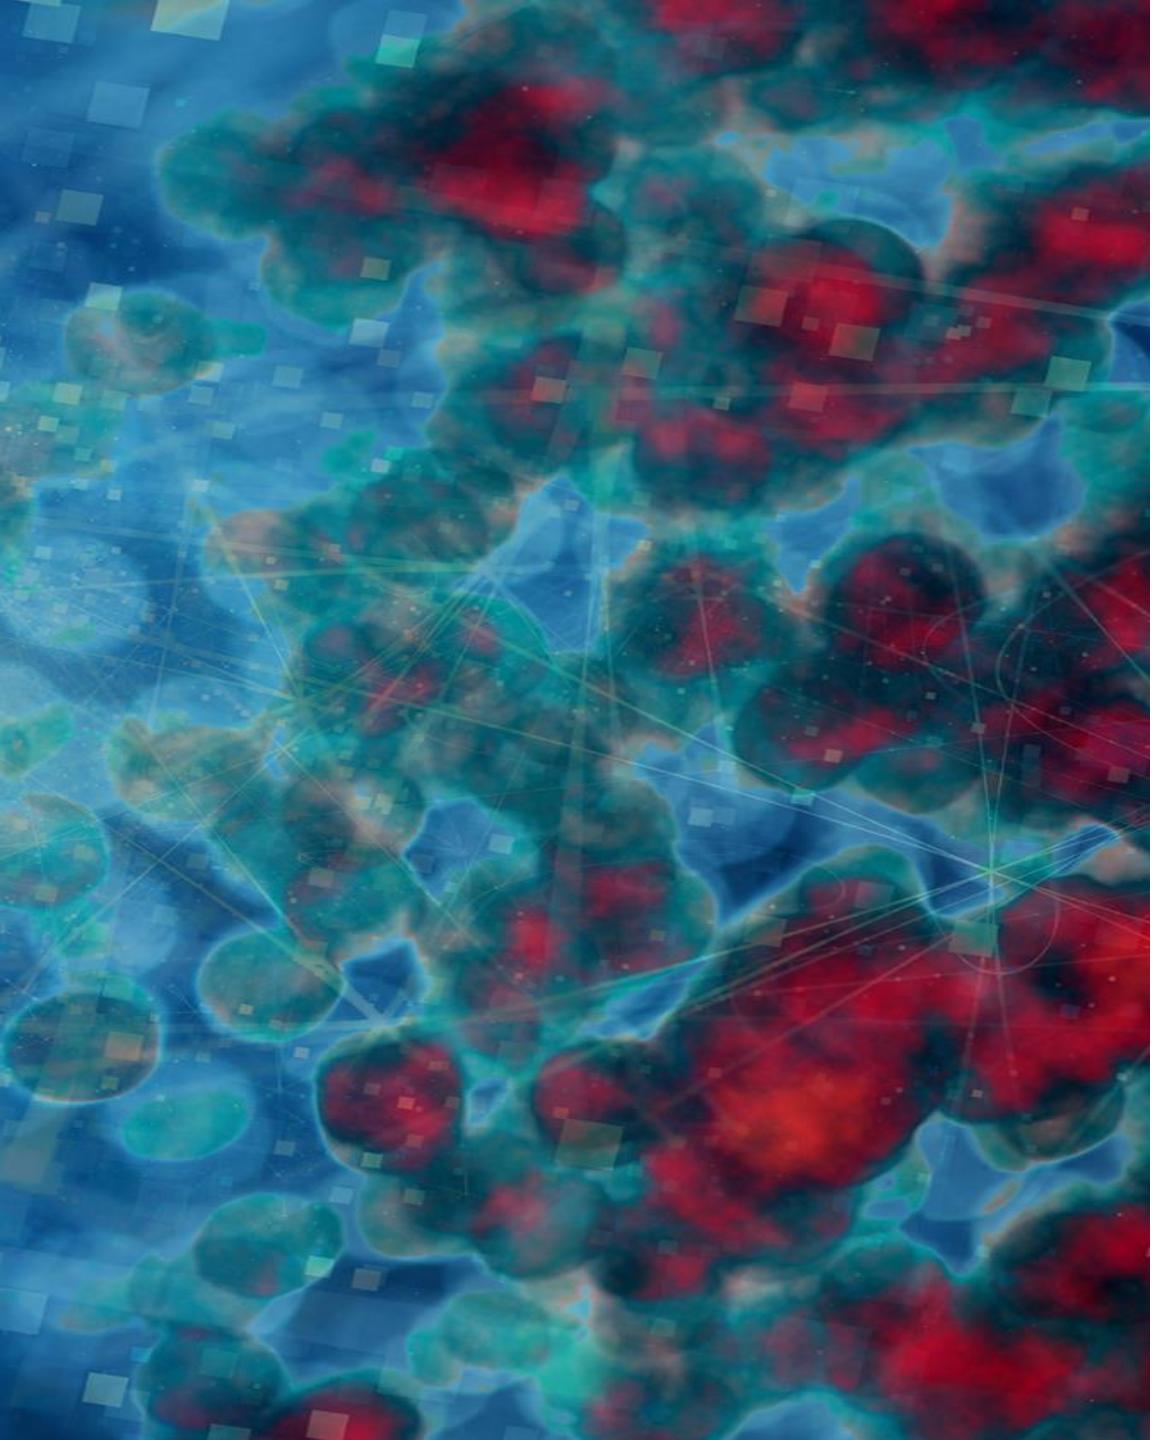

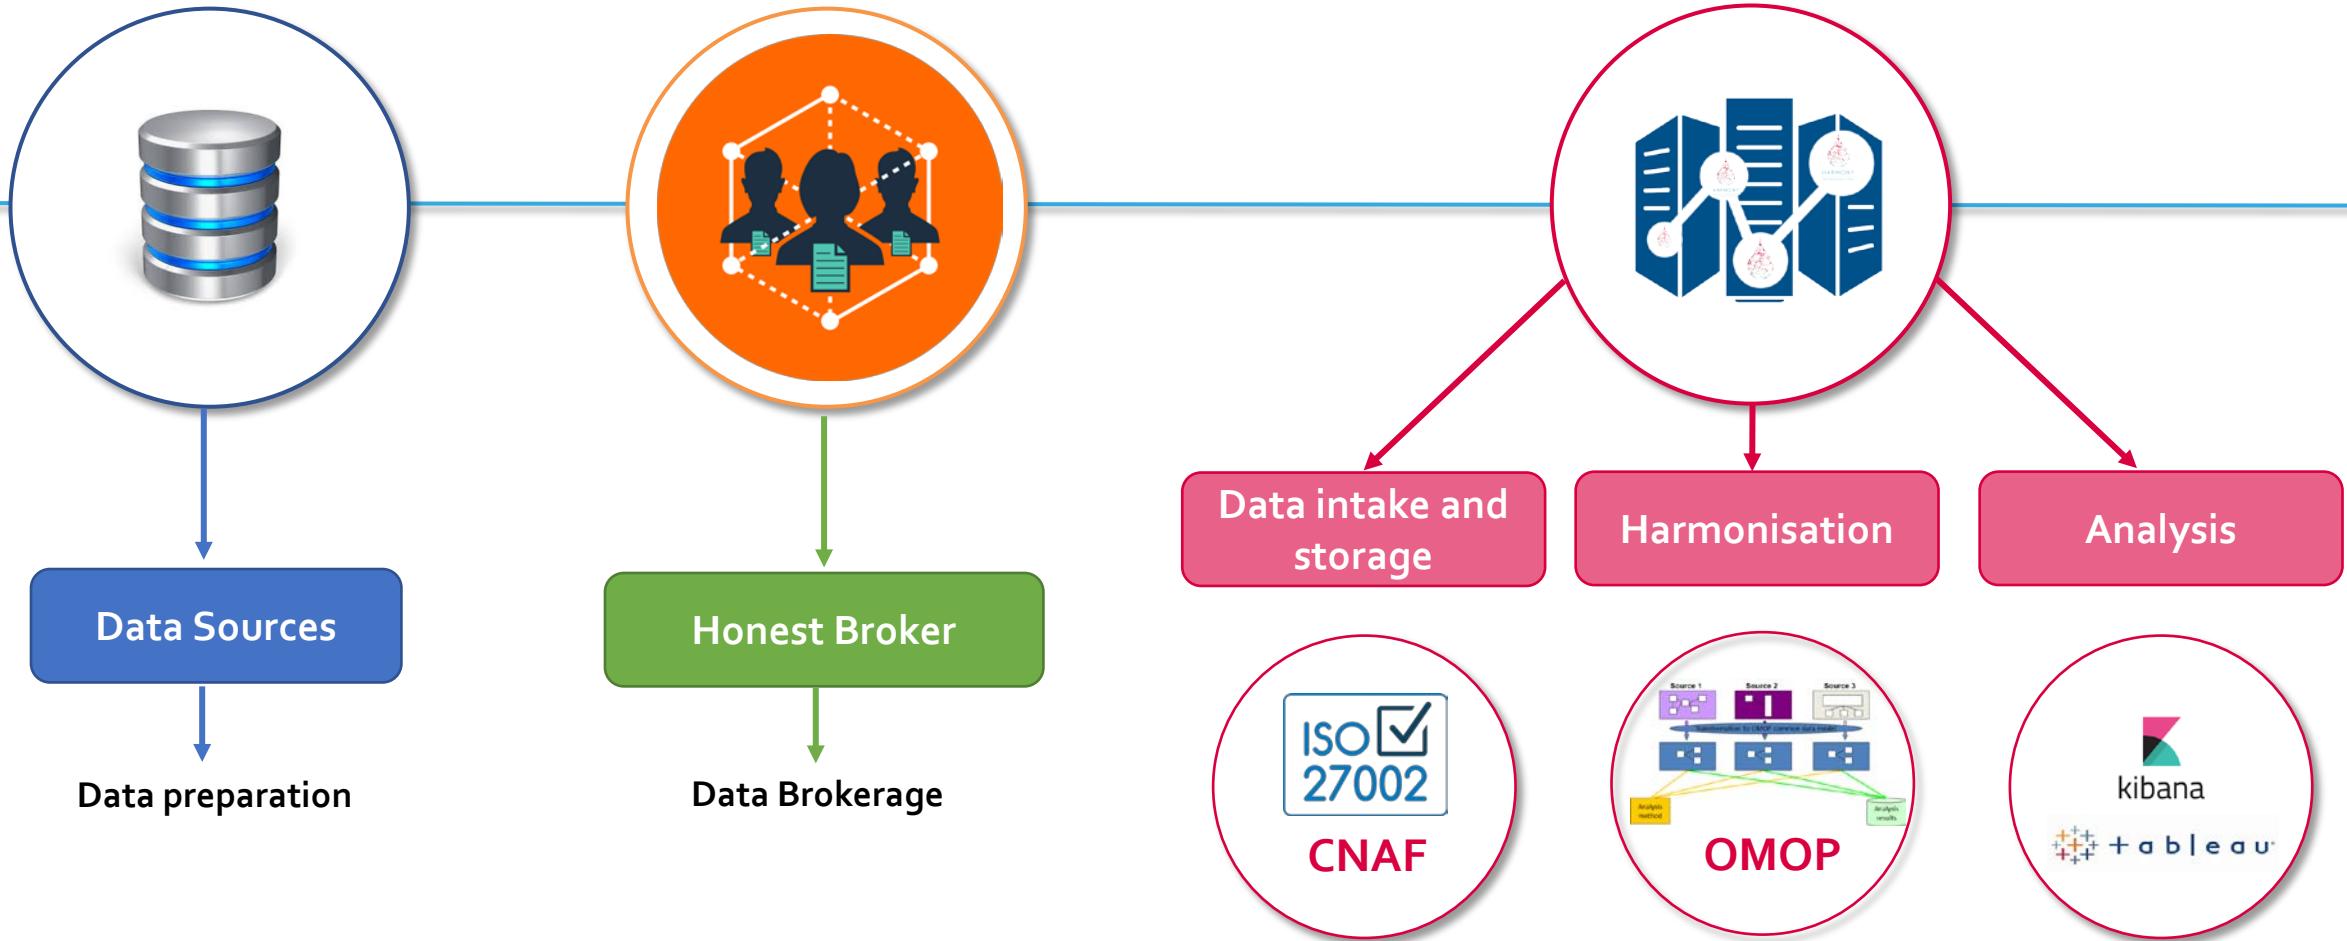

Involving every stakeholder group is necessary to meet patients' needs

HARMONY

Data Sharing

Our database is **ready to work**

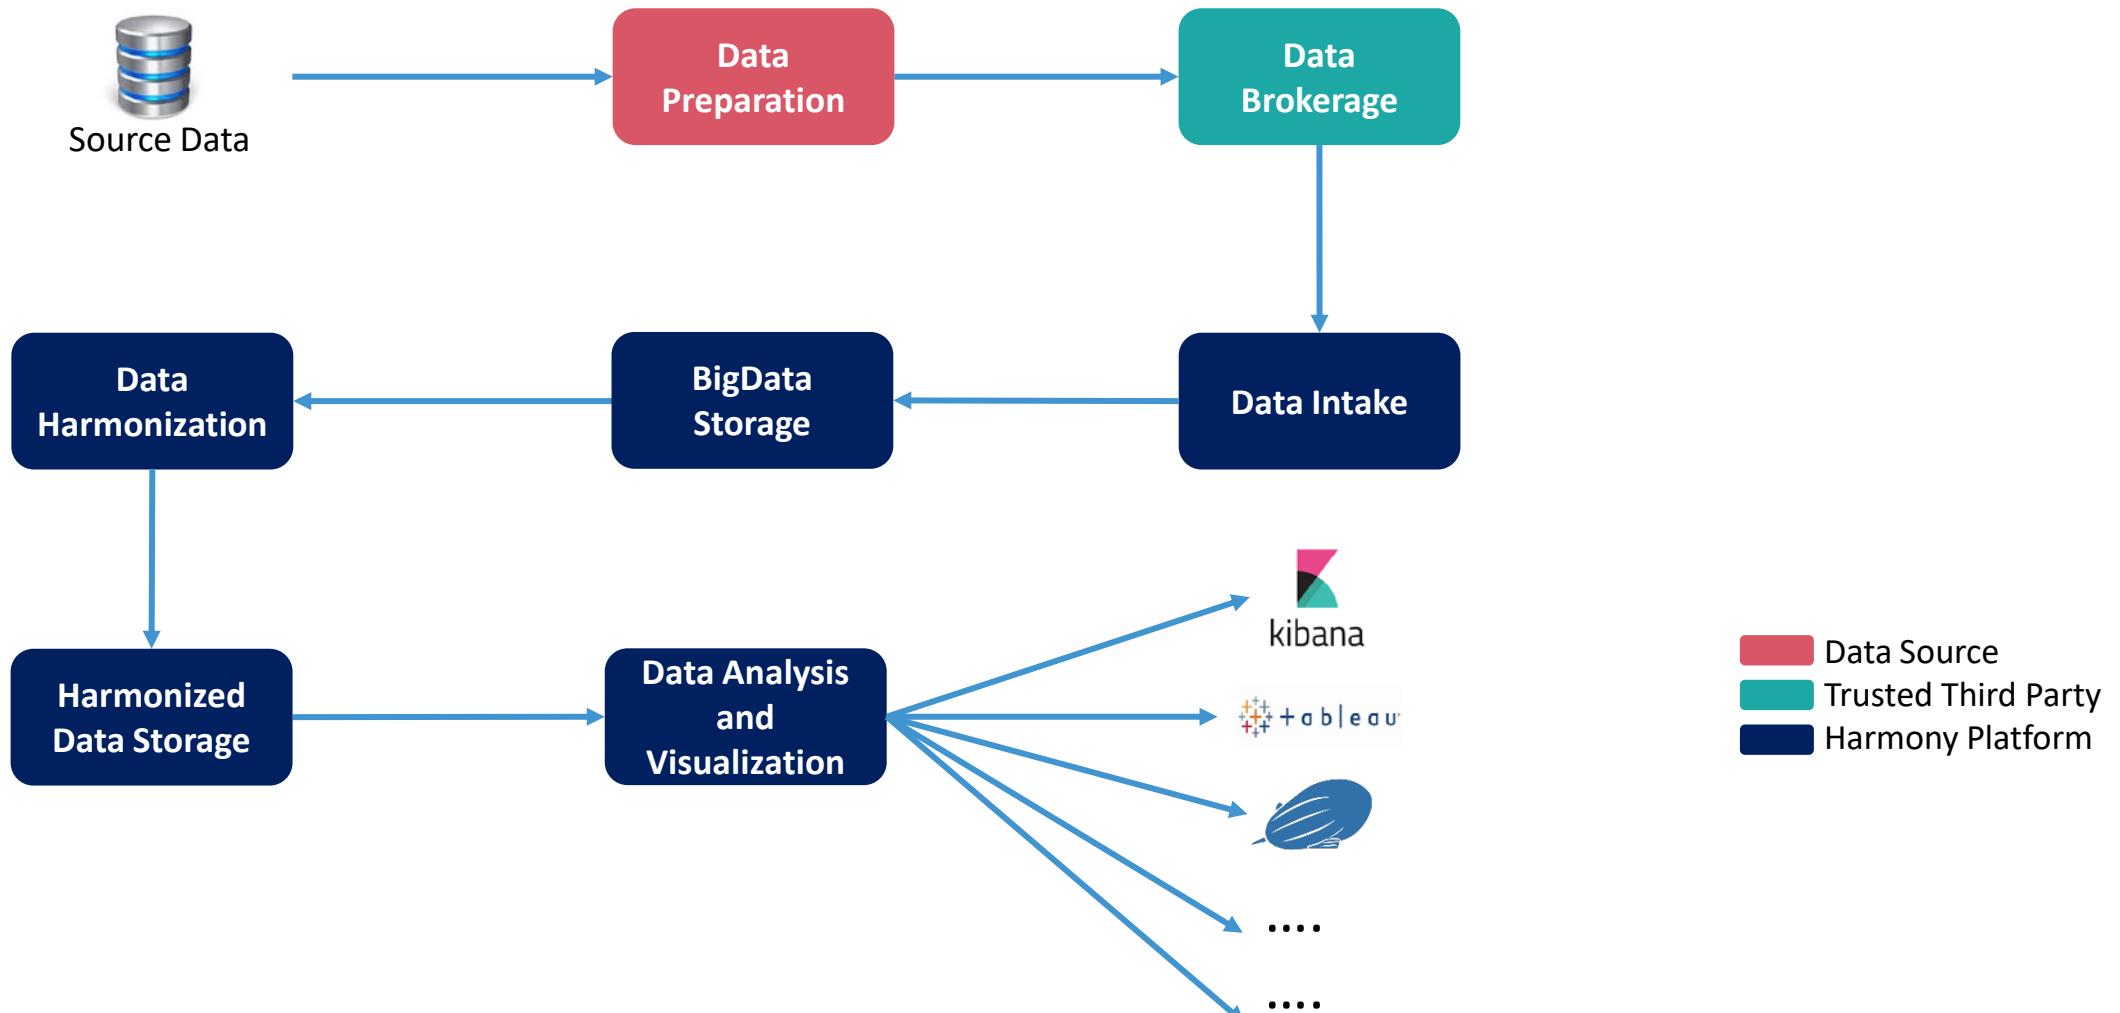

HARMONY

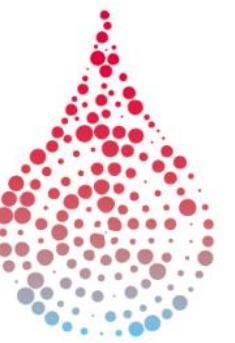

Innovative Analysis for Research in Medicine

Funded
by

Data Pipeline

HARMONY

Data Privacy And Protection: Legal And Ethical Implications

Objectives of the data management process

Make the data available in a format that optimally addresses the research questions while respecting the applicable legal and regulatory requirements.

“De Facto” Anonymization

Definition

Data for which attributing the individual data to the relevant individual concerned requires unreasonable effort in terms of time, cost and manpower.

HARMONY
Harmonising Access to Research Data in Europe

Funded by

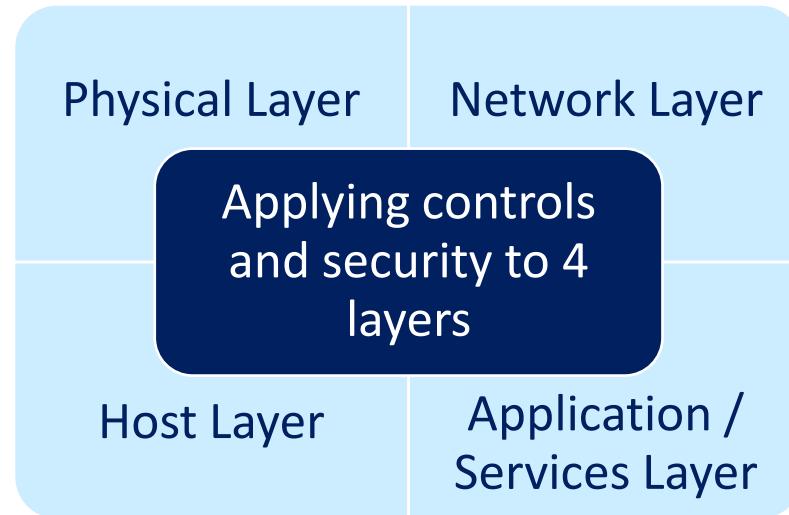

Privacy and Security

HARMONY Platform protection

- VPN (Virtual Private Network)
- Firewall with two levels
- Audit: WHO, WHEN, WHERE, WHAT, HOW
- Risk analysis
- Named access
- Roles' segregation
- Data governance: **nobody** has access to the data

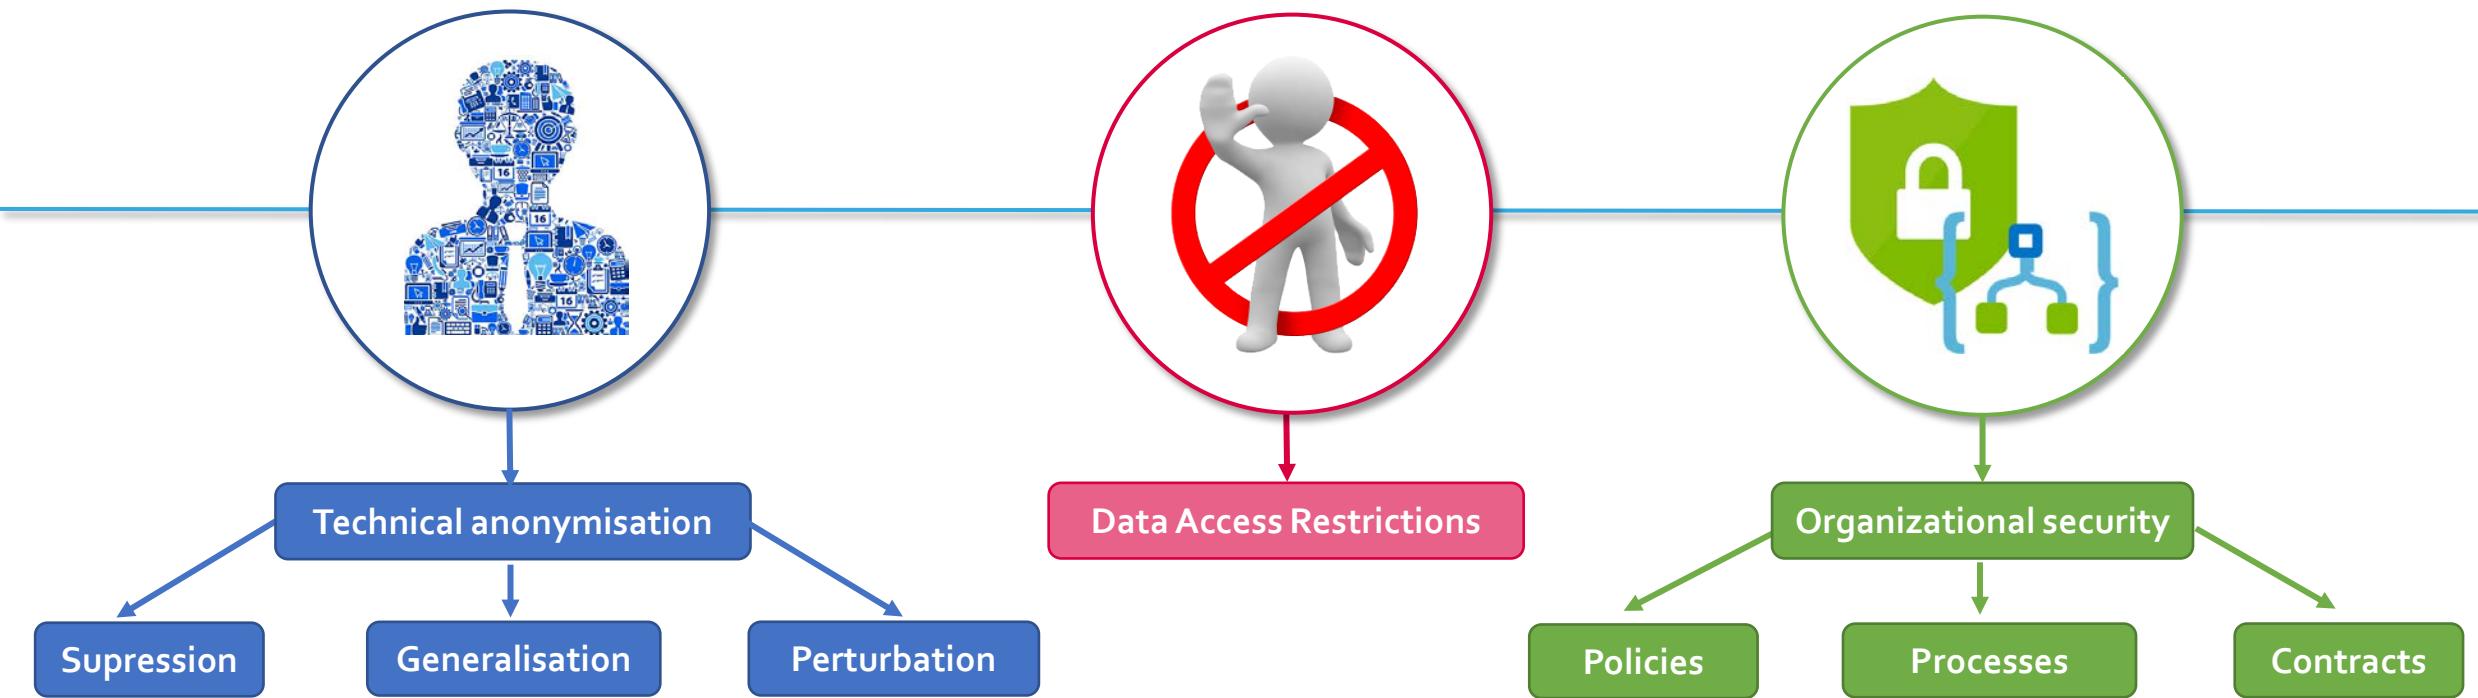

HARMONY
Healthcare Alliance for Research on Medicines
Defensive against Adulterants in Healthcare

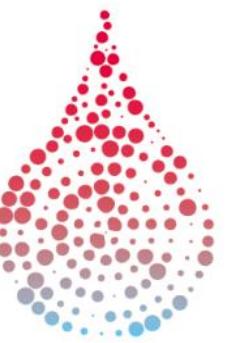

The platform is hosted on
CNAF Hosting with ISO 27001

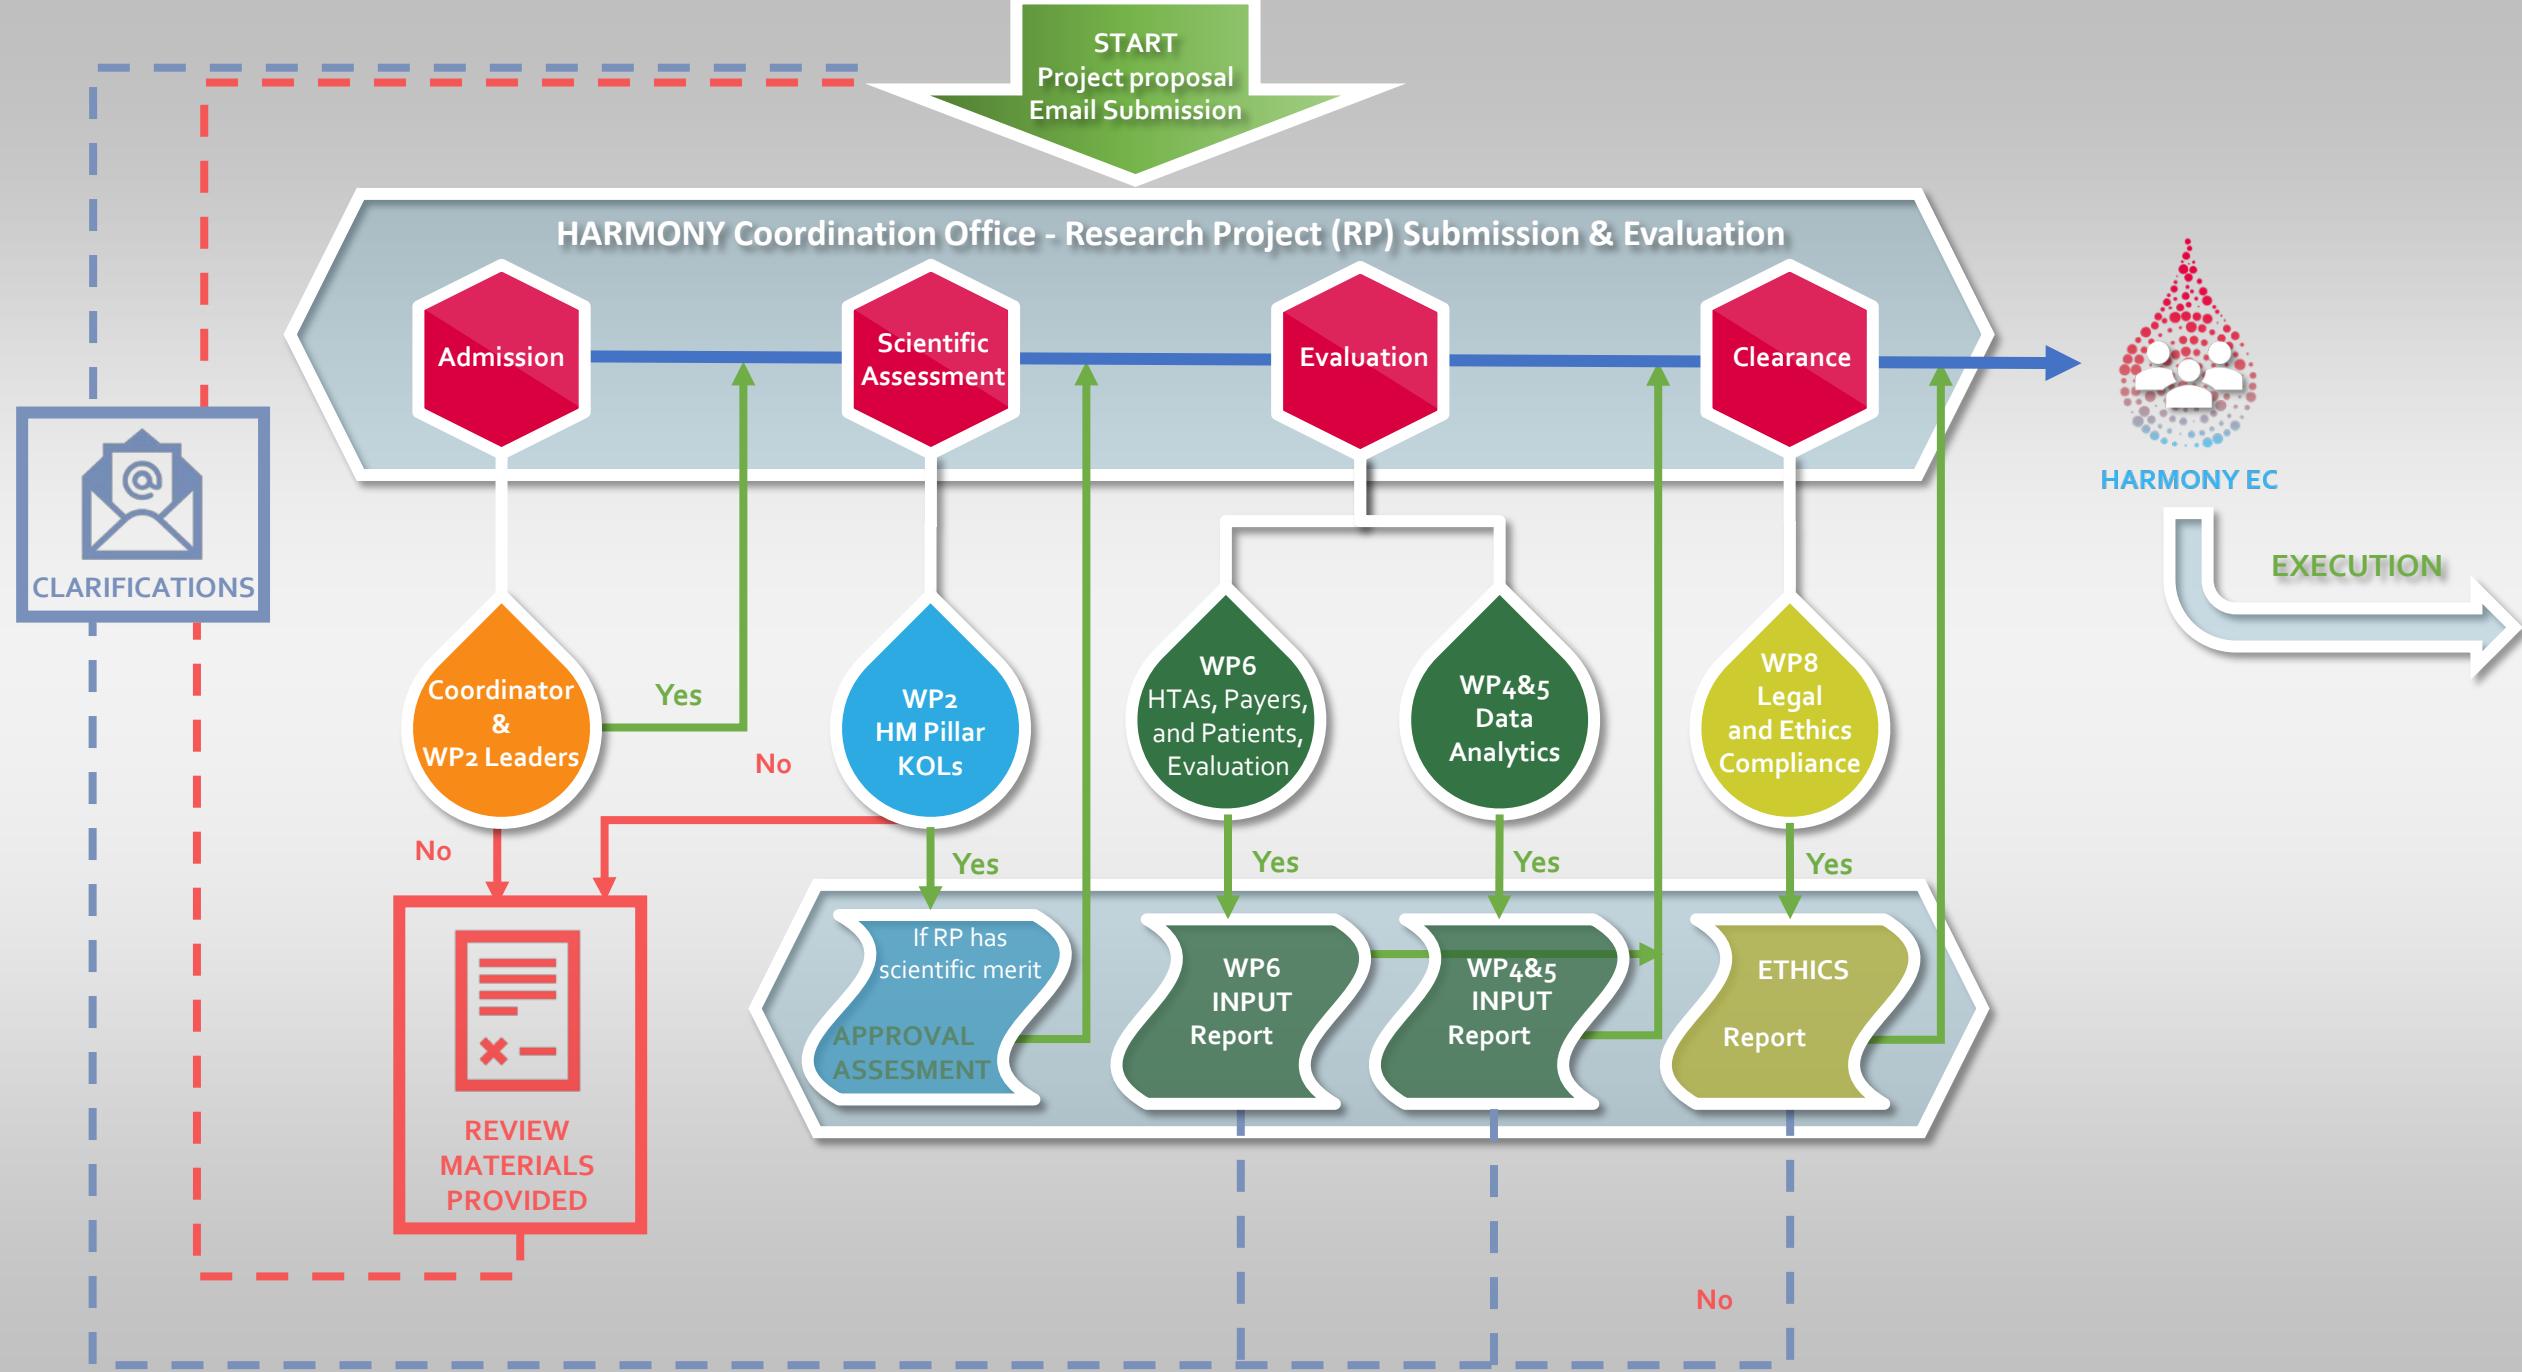

Green light for data intake: *de-facto* anonymization

HARMONY

Research Projects: Standard Operational Procedure

| WP2 Outcomes definition (UULM, BAYER, TAKEDA) | | Public KOLs | | EFPIA Disease Contacts | | WP6 HTA, EMA, patients integration (LeukaNET, CELGENE, JANSSEN) | | |
|---|-----------------|--------------------------------------|---|------------------------|----------------------------|--|--|--|
| Data analytics for therapies valuation (UNIBO, MENARINI, JANSSEN) WP5 WP3 WP4 Data access platform (GMV, JANSSEN, BAYER) | ALL | Gökbüget Dombret Ribera | Jens Hasskarl, Celgene Marieke Schoonen, AMGEN | | Zack Pemberton Whiteley | | | |
